View one new peer-reviewed research article from any ACS journal, selected daily, and made open access based on recommendations by ACS journal scientific editors from around the world.

Journal of Agricultural and Food Chemistry (ACS Publications)

Analytical and Bioanalytical Chemistry is published under the leadership of an international team of eminent analytical scientists. Meet the ABC Editors by reading their biographical portraits below. Antje Bäumner is the Director of the Institute of Analytical Chemistry, Chemo- and Biosensors at ...

American Chemical Society: Chemistry for Life. The American Chemical Society urges action to address climate change . In light of the recent release of the Fourth National Climate Assessment Volume II, ACS urges the administration and Congress to take immediate steps to deal with humanity's role in climate change and reduce greenhouse gas emissions.

American Chemical Society

CURRENTLY HIRING TWO TENURE-TRACK FACULTY POSITIONS At the Department of Chemistry, our passions are broad and far-reaching. Our researchers have access to world-class facilities that help them solve critical problems.

Fullerene chemistry is a field of organic chemistry devoted to the chemical properties of fullerenes. Research in this field is driven by the need to functionalize fullerenes and tune their properties. For example, fullerene is notoriously insoluble and adding a suitable group can enhance solubility. By adding a polymerizable group, a fullerene polymer can be obtained. Functionalized ...

Strontium in Marine Aquaria. In a study of 23 marine aquaria, Shimek37 showed that the strontium levels ranged from 4 to 10 ppm, with a mean of 6.8 ppm. Some of these aquarists were likely adding strontium supplements, and some not. My own aquarium, where I have not added any strontium supplements in several years, has a strontium level of 15 ppm (measured by ICP, a technique describe later in ...

Aquarium Chemistry: Strontium and the Reef Aquarium

A biosensor is an analytical device, used for the detection of a chemical substance, that combines a

biological component with a physicochemical detector. The sensitive biological element, e.g. tissue, microorganisms, organelles, cell receptors, enzymes, antibodies, nucleic acids, etc., is a biologically derived material or biomimetic component that interacts, binds, or recognizes with the ...
