Directory of computer-aided Drug Design tools Click2Drug contains a comprehensive list of computer-aided drug design (CADD) software, databases and web services.

Directory of in silico Drug Design tools

Electronic Journal of Biotechnology is an international scientific electronic journal, which publishes papers from all areas related to Biotechnology. It covers from molecular biology and the chemistry of biological processes to aquatic and earth environmental aspects, computational applications, policy and ethical issues directly related to Biotechnology.

Electronic Journal of Biotechnology - Elsevier

Lindenmayer Systems, Fractals, and Plants originated as notes for the SIGGRAPH 1988 course Fractals: Introduction, basics, and applications. They were published, with minor editorial changes, as a book by Springer-Verlag, New York, in 1989, and reprinted in 1992.

Algorithmic Botany: Publications

A simulation is an approximate imitation of the operation of a process or system; the act of simulating first requires a model is developed. This model is a well-defined description of the simulated subject, and represents its key characteristics, such as its behaviour, functions and abstract or physical properties.

Artificial life (often abbreviated A-Life or A-Life) is a field of study wherein researchers examine systems related to natural life, its processes, and its evolution, through the use of simulations with computer models, robotics, and biochemistry. The discipline was named by Christopher Langton, an American theoretical biologist, in 1986. There are three main kinds of alife, named for their ...

Artificial life - Wikipedia

The Blue Brain Project is an attempt to reverse engineer the human brain and recreate it at the cellular level inside a computer simulation. The project was founded in May 2005 by Henry Markram at the EPFL in Lausanne, Switzerland. Goals of the project are to gain a complete understanding of the brain and to enable better and faster development of brain disease treatments.
